Well-intentioned people often feed deer, elk and other wildlife without realizing the problems feeding can create:

- Artificial feeding concentrates wildlife, which leads to the easier spread of disease and parasites and easier take by predators.
- Feeding deer and elk attracts their natural predators like cougars and coyotes to areas of human activity.
- Once wildlife associate people with giving them food, they come to expect it. Feeding will invite more deer and elk to your property and encourage them to stay.
- Artificial feeding can cause deer and elk to become habituated to humans and aggressive towards them.
- Concentrating deer and elk in human-settled areas can lead to an increase in vehicle collisions and conflicts between wildlife and pets.
- Concentrating deer and elk can hurt habitat by encouraging excessive grazing.

Host News

- The MSR newsletter is now available to friends, family & visitors. If you know somebody who would like to keep on top of the hot topics of MSR please have them email a request to host@mountaindalesun.com.

- Welcome back to our snow birding members!

- Each member is required to sign in at the Clubhouse on the day of their **ARRIVAL**. If you bring a guest to MSR for an overnight stay, it is your responsibility to register your guest and ensure that the overnight fees are paid **immediately** upon arriving on the grounds and a **registration envelope** is filled out completely. This is a security and safety matter. It is also a By Law that must be adhered to.

- It's **Spring time**, which means lots of spring cleaning going on. Please **do not** fill up the club trash bins when cleaning out your cabins. We have **limited** trash space for members day to day use.

- Dispose of paints, chemicals, small appliances such as fans and vacuums properly off MSR grounds.

- If you are generous enough to donate free items to our members, please come by to see if anyone has accepted your items. If they are still where you left them after a couple of days, remove them.

- If you are selling/giving away larger items you are welcome to post a sign at the clubhouse but do not leave the actual item there.

- **Work party** will be April 28th, Saturday, starting at 9 a.m.

- Looking for volunteers to provide, serve and clean up lunch for workers.

- If you are planning on a construction project on your leased lot, please contact the board with your plans prior to building. Reading the bylaws, procedure manual, and lot lease guide will provide you with the answers to many questions.

A Little Spring Humor to get the jokes started!

Rich's Trail Report

As the late season snow melts from the shady parts of our trails; As the wisps of steam rise from the warming forest floor; as the moss, draping from the tree branches, turns an intense shade of green; as the rising plants turn their emerging buds to the brightening sky; Winter begins its transition in to Spring. The forest begin to awaken from its slumber. The hills come alive, not with the Sound of Music, but with the birds merrily chirping along as they greet our members and guests as they explore our trails.

Experience MSR. Experience the trails as they Spring to life.
